

Color the farming seasons with Unverferth!

## **Dedicated to the future of American agriculture and our young farmers.**

From wheels to tillage and grain handling products, Unverferth Manufacturing offers a big variety of equipment to make farm life more productive and easier. Founded in 1948 by Richard and his father, Lawrence, Unverferth Manufacturing has grown from dual wheels to designing, manufacturing and marketing of a large line up of tillage and grain handling products, in addition to the largest variety of agricultural wheels.

With dealers across North America, Unverferth products can be seen working on many farms across the countryside. This coloring book features just a few of the products made at manufacturing facilities in Kalida and Delphos, Ohio and Shell Rock, Iowa.

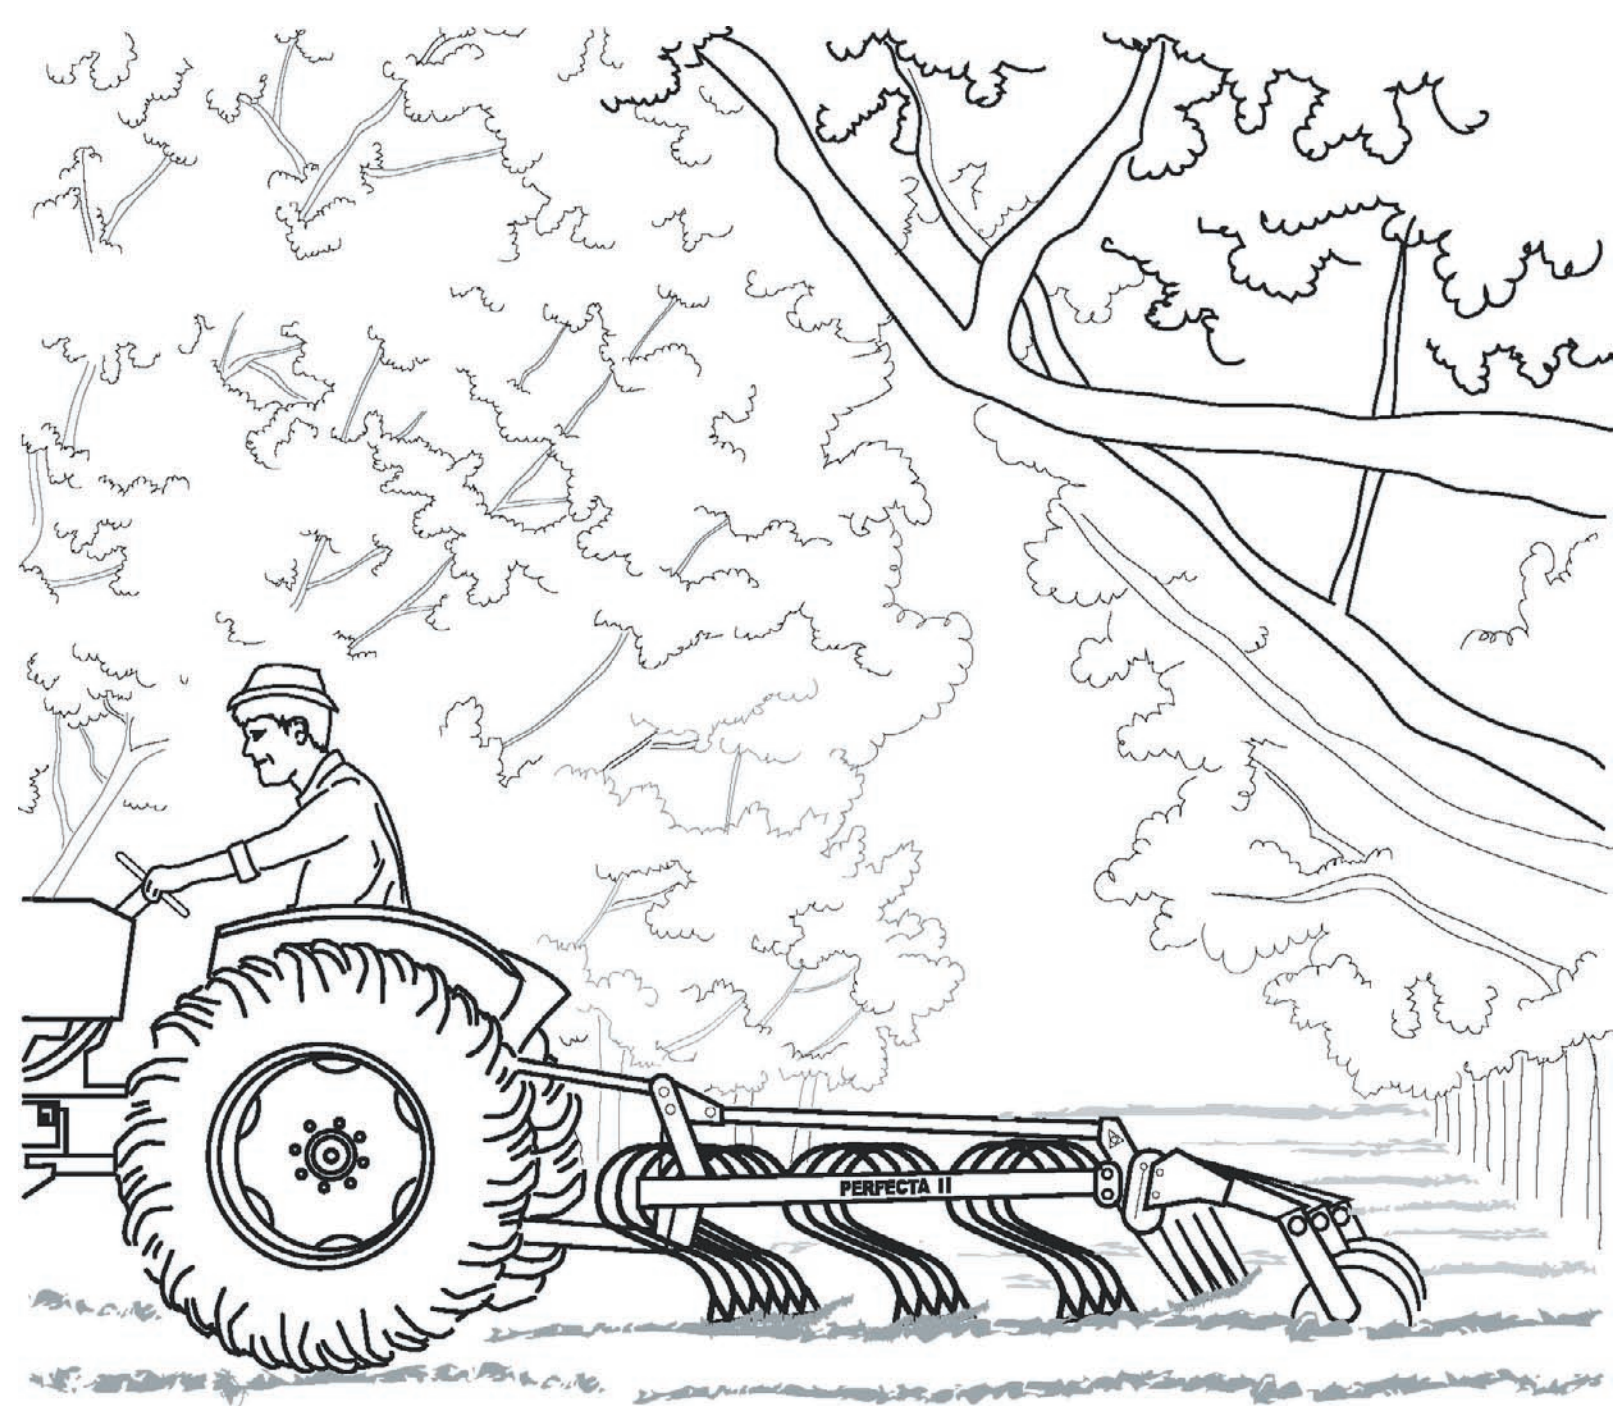

In conjunction with Farm Safety 4 Just Kids, Unverferth Manufacturing encourages everyone to farm safely and to promote proper farm equipment use throughout the year.

Triple wheels help equipment move  
easily across wet fields

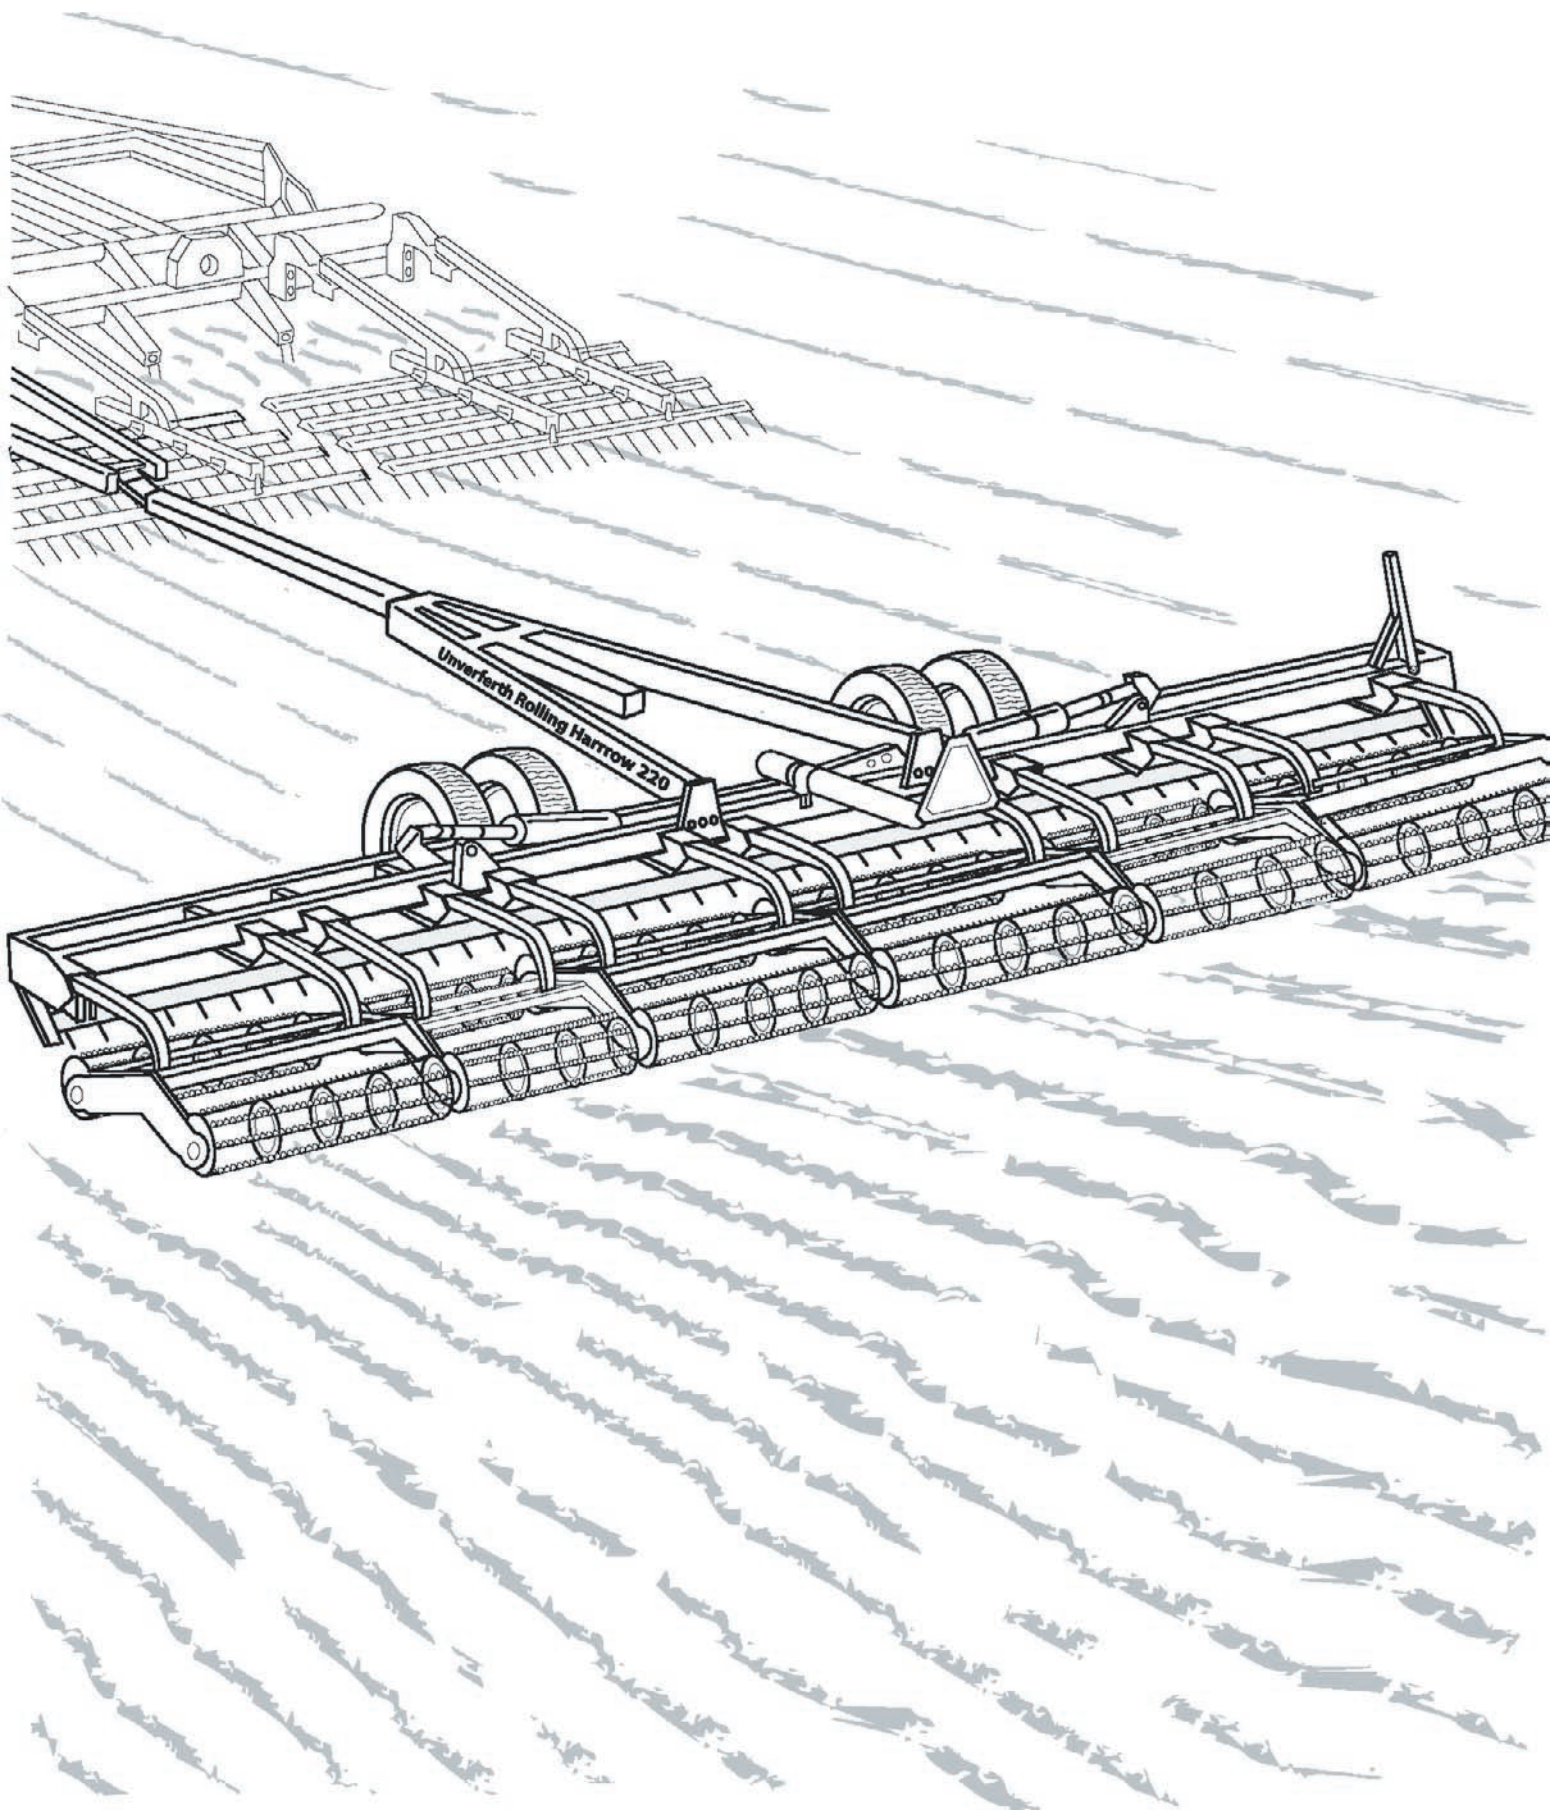

The Perfecta II tool makes it easy to keep  
the space between orchard rows

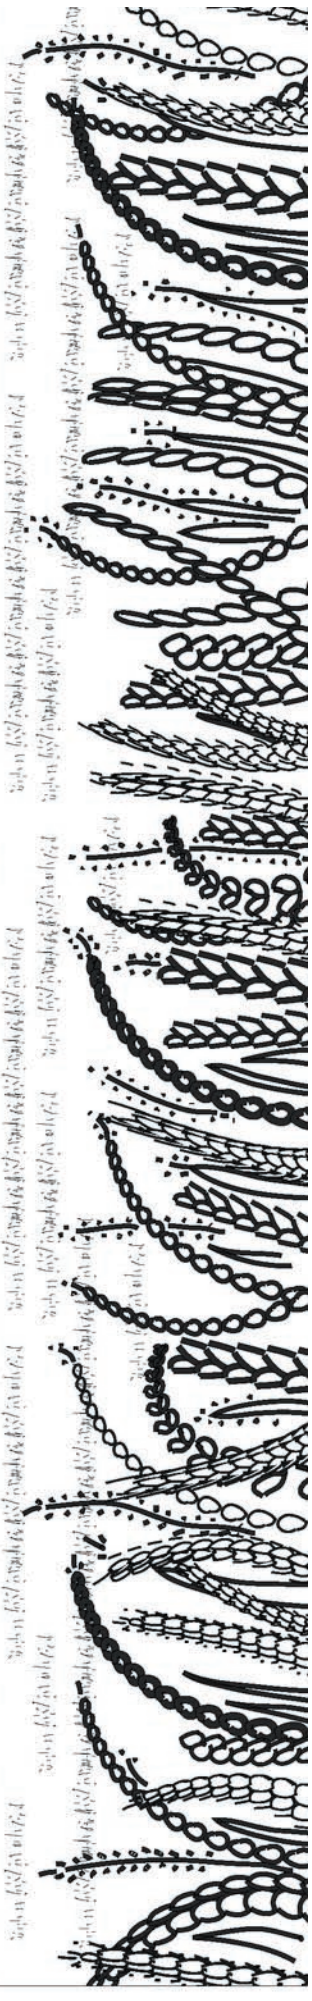

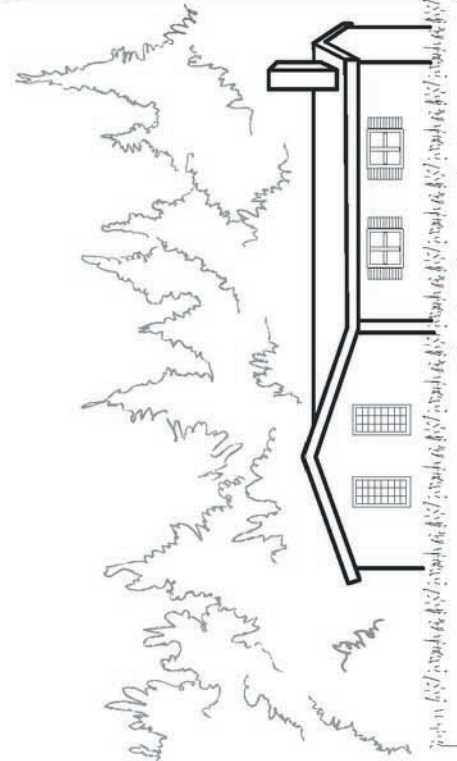

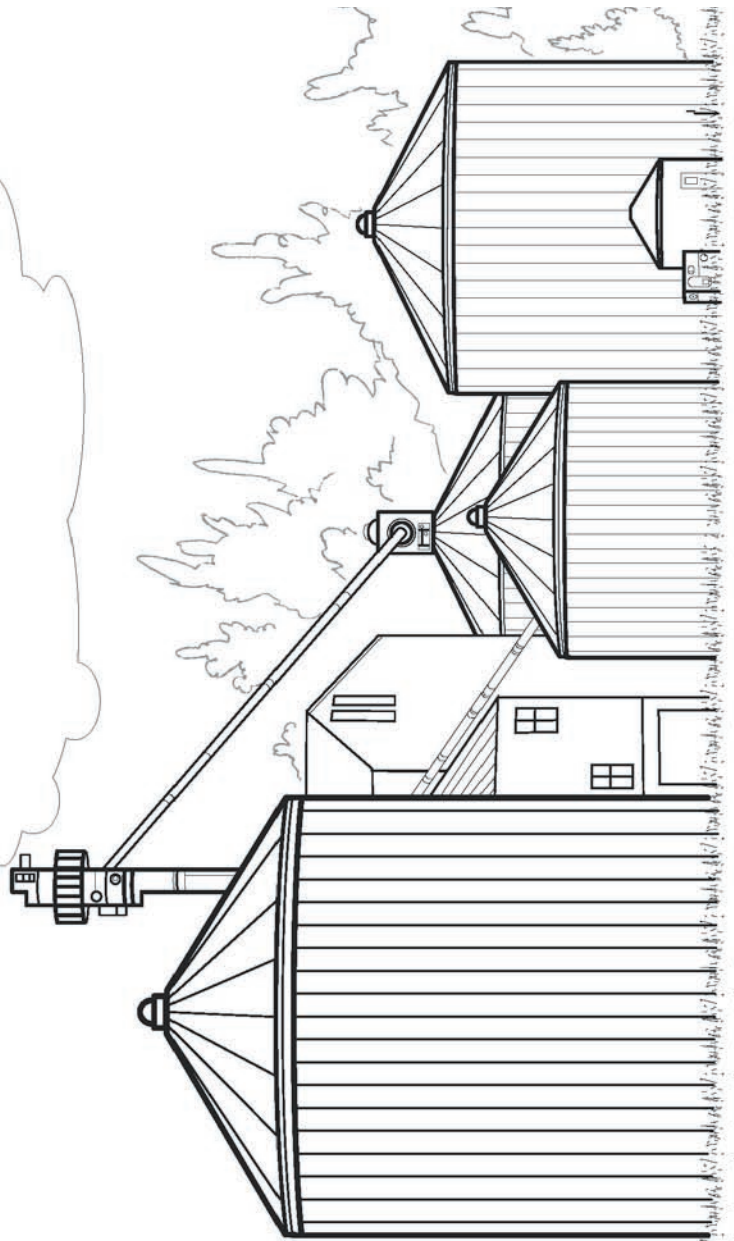

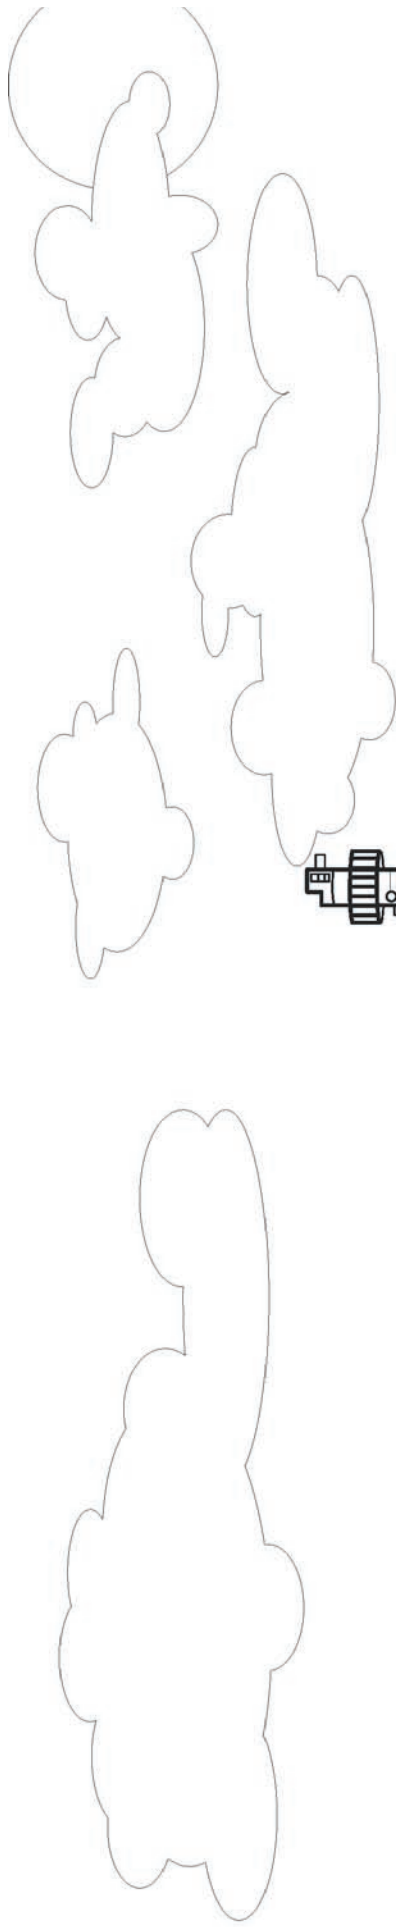

Drill and Planter

fills make it easy to fill seed boxes

The Ripper-Stripper tool reduces tillage  
to save soil moisture

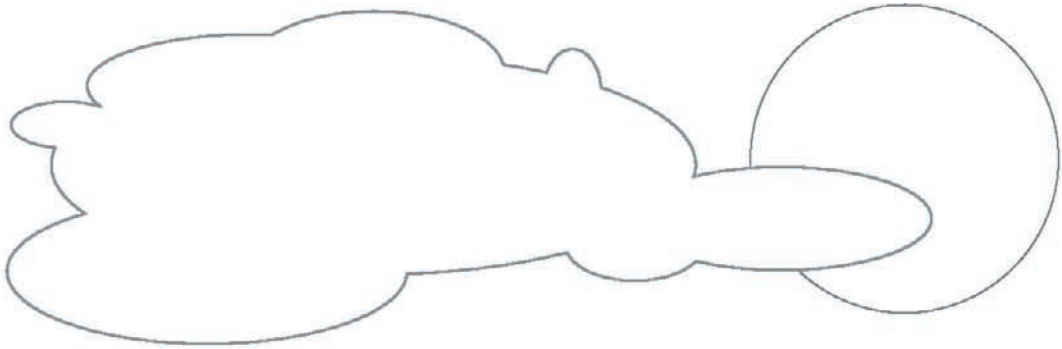

The Perfecta II cultivator makes a nice seedbed  
for planting seeds

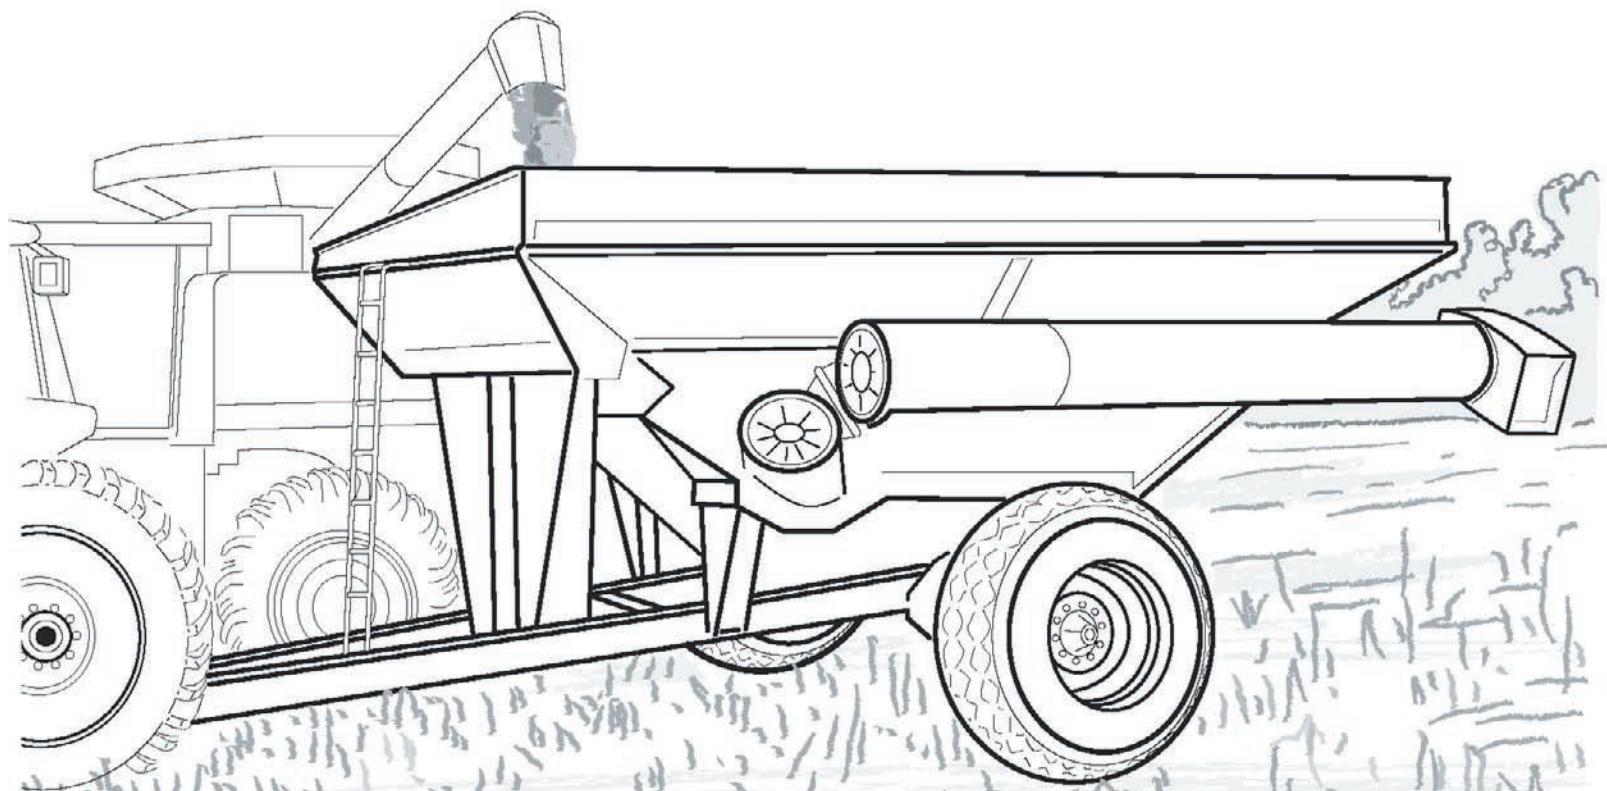

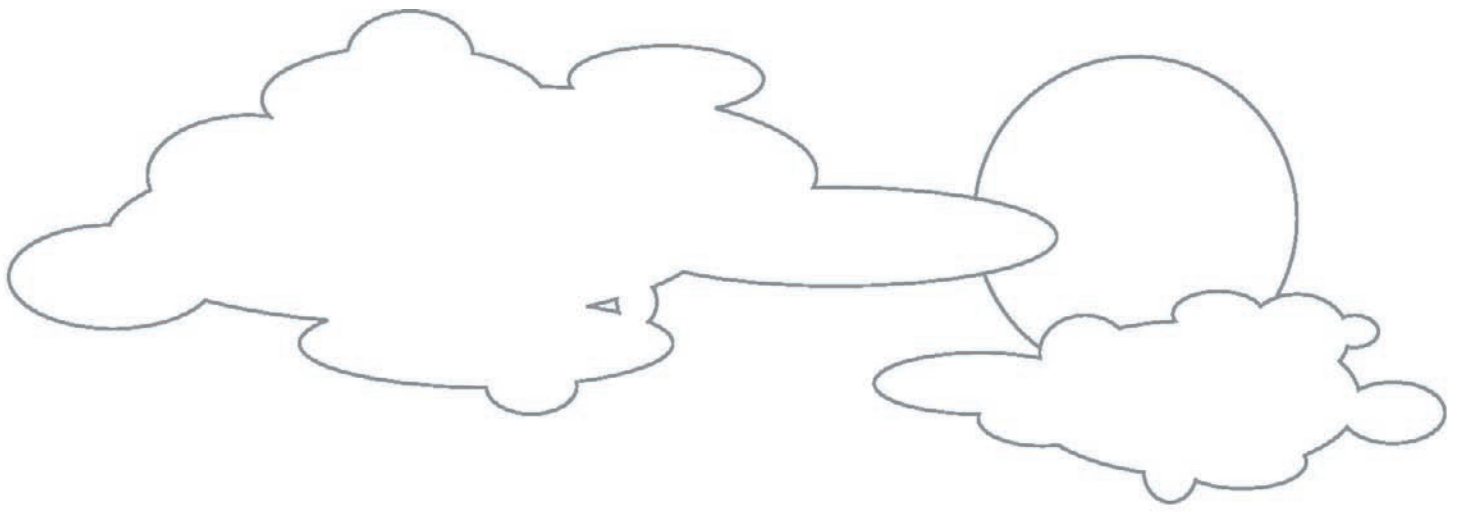

Header Transports move big combine heads to  
keep roads safer.

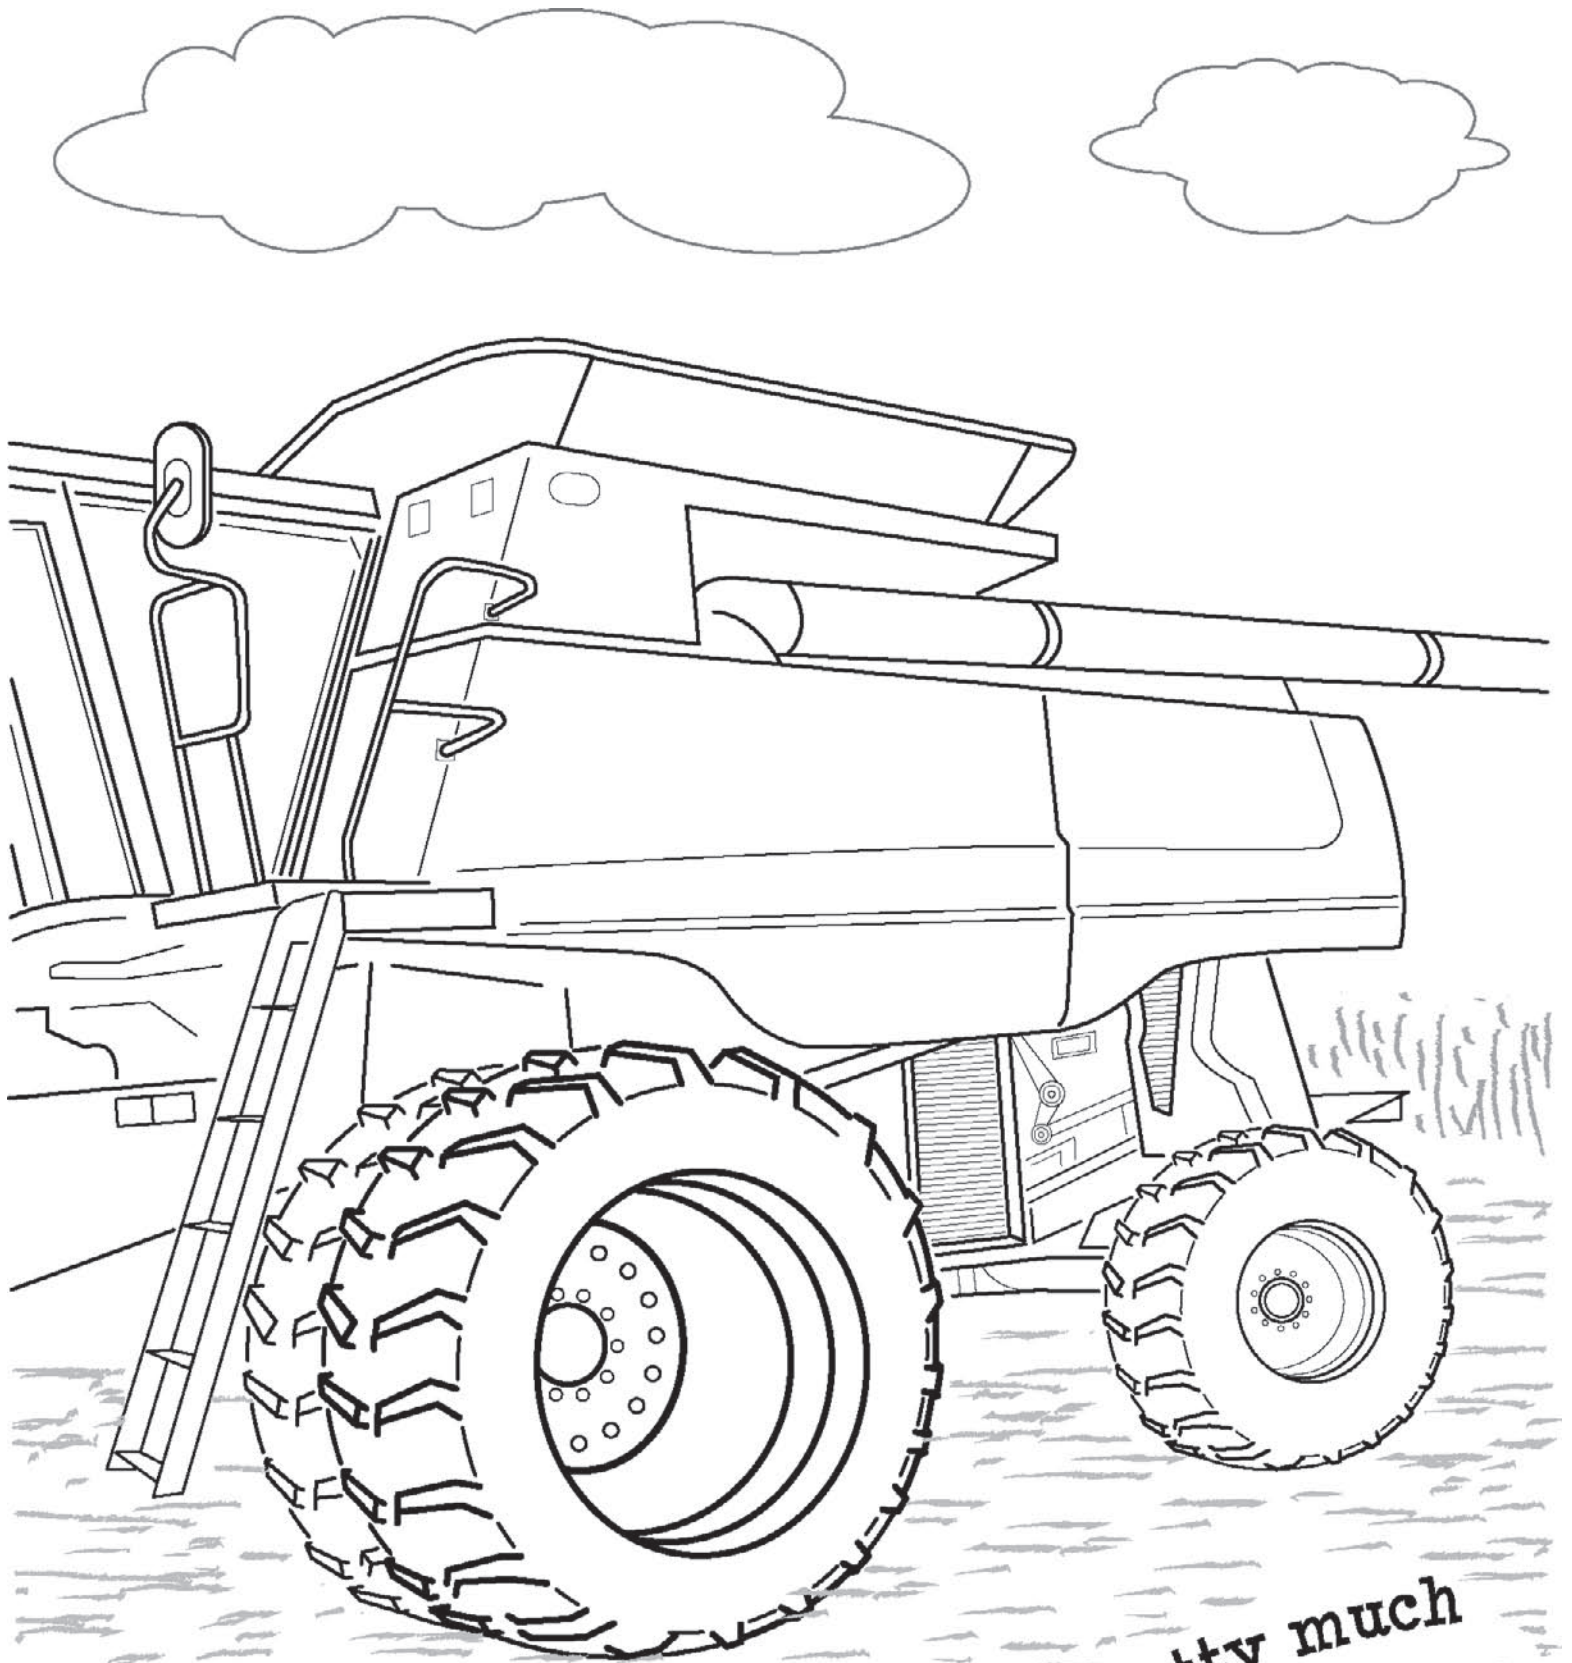

Grain wagons move crops down the road  
and to the grain bin

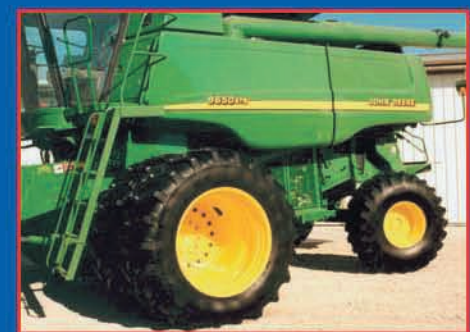

Grain Carts Take The Crop From The Combine  
To A Truck For Faster Harvest.

**Wheels for combines, tractors and pretty much  
anything on the farm.**
